DETAILS OF THE OFFER

The Offer

This prospectus is for the offer of up to 9.75 million Shares at 7 cents each, to raise up to \$682,500.

No Shares will be issued pursuant to the Offer until the Minimum Subscription is reached. Over subscriptions will not be accepted.

Use of Proceeds

The funds raised from the Offer will be applied to general working capital. The directors intend to apply this general working capital in the following manner (in order of priority): firstly, to the estimated expenses of the Offer (approximately \$63,000), then towards corporate and administrative overheads (approximately \$200,000) and then towards the development of the Namakwa Diamond Project (approximately \$421,500) (eg, ongoing bulk sampling, preparation of the feasibility study and mining lease application).

If the Offer is not fully subscribed the estimated expenses of the Offer will be reduced by up to 6% of the amount of the shortfall (which is part of the fees payable to Montagu). Regardless of the amount raised, it is anticipated that, after paying the expenses of the Offer, the funds will be allocated firstly towards corporate and administrative overheads, with any remaining funds to be applied to the development of the Namakwa Diamond Project.

Therefore, should only the Minimum Subscription be raised, it is anticipated that, after paying the expenses of the Offer (approximately \$37,000), the funds will be allocated firstly towards corporate and administrative overheads (approximately \$200,000), with any remaining funds to be applied to the development of the Namakwa Diamond Project (approximately \$13,000).

Applications

If you wish to participate in the Offer, you must complete the application form accompanying this prospectus in accordance with the instructions set out therein. Application monies will be held in a separate bank account on behalf of applicants until the Shares are issued. If any application is rejected in whole or in part, the amount tendered in respect of the Shares that have not been issued will be repaid to the unsuccessful applicant, without interest.

Issue of Shares

Subject to ASX Listing Rules, the directors reserve the right, in their absolute discretion, to accept any application in whole or in part, or to reject any application. If the directors decide to accept your application and issue the Shares, either in whole or in part, they will issue the Shares and dispatch a holding statement to you as soon as practicable after the closing date, together with any application monies received in excess of the number of securities that you have been issued.

Closing Date

The closing date for the Offer will be 5:00pm (WST) on 30 June 2003. The directors may, in their absolute discretion, close the Offer at any other date and time, without notice.

Manager to the Offer

The Offer is not underwritten. Montagu Stockbrokers Pty Ltd has agreed to be named as Manager to the Offer and the Company will pay Montagu a fee of \$8,000 plus up to 6% of the amount raised pursuant to the Offer for acting as Manager to the Offer. See *Additional Information - Agreement to Manage the Offer* for further details.

Stock Exchange Listing

The Company will apply within 7 days after the date of this prospectus for the Shares to be quoted on ASX. If the application for the quotation of Shares on ASX is not made within 7 days after the date of this prospectus or if the Shares are not granted quotation within 3 months after the date of this prospectus, the Company will (subject to any variations that ASIC may approve):

- a) repay all application monies received with respect to the Offer; or
- b) give the applicants a supplementary or replacement prospectus and 1 month to withdraw their applications and be repaid; or
- c) issue the Shares to the applicants and give them a supplementary or replacement prospectus and 1 month to withdraw their applications and be repaid.

The fact that ASX may grant quotation of the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares.

EFFECT ON COMPANY

Effect on Financial Position

Assuming that the Offer is fully subscribed, the Company's cash reserves, contributed equity and net assets will increase by \$619,500, which is the amount that would be raised pursuant to the Offer (\$682,500) less the estimated expenses of the Offer (approximately \$63,000).

If the Offer is not fully subscribed, the aforementioned effect on the Company's cash reserves, contributed equity and net assets will be reduced by the amount of the shortfall (less the cost savings with respect to the fees payable to Montagu (up to 6%) for acting as Manager to the Offer).

Therefore, should only the Minimum Subscription be raised, the Company's cash reserves, contributed equity and net assets will increase by \$213,000, which is the minimum amount that would be raised pursuant to the offer (\$250,000) less the estimated expenses of the Offer (approximately \$37,000).

Effect on Capital Structure

The capital structure of the Company following completion of the Offer (assuming that the Offer is fully subscribed) is summarised below:

Shares	Number
Shares on issue at the date of this prospectus	65,040,227
Shares to be issued pursuant to the Offer	9,750,000
Total Shares on issue upon completion of the Offer ¹	74,790,227
Options²	
2003 Options	25,592,667
2004 Employee Options	830,000
2005 Employee Options	990,000
Total Options on issue upon completion of the Offer	27,412,667

¹ If the Offer is not fully subscribed, the Shares on issue following completion of the Offer will be reduced by the under subscribed amount.

Risks

The directors consider that an investment in the Shares the subject of this prospectus is speculative because of the nature of the Company's business. The risk areas that may have a material effect on the financial position and performance of the Company and the value of its securities include, but may not necessarily be limited to, economic (such as diamond prices, exchange rates and interest rates), exploration, environmental, permit, sovereign, legislative change, unexpected variations in exploration, mining, development and operating costs and general market conditions in Australia, South Africa and worldwide. These risks may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities and many of these factors may be beyond the Company's control.

Exploration, by its nature, contains elements of significant risk (particularly exploration for alluvial diamonds). Ultimate success depends on the discovery of economically recoverable mineral resources, obtaining the necessary titles and other government regulatory approvals, the obtaining and servicing of funding arrangements to fund the establishment of an efficient mining operation if and when a decision to mine is made. The effect of any future claims over the Company's tenements and licenses is unknown.

The above statement of risk factors is by way of illustration only. There are numerous other risk factors inherent in an investment in the Company's securities and there can be no assurance whatsoever that a return on investment will be obtained by investing in the Company's securities or that the investment therein will not be lost.

The Company has agreed to appoint Montagu as Manager to the Offer. Following is a summary of the material terms and conditions of the agreement.

Subject to the Corporations Act 2001 and ASX Listing Rules, the directors may also capitalise any profits of the Company and distribute that capital to Shareholders in the same proportions as the Shareholders are entitled to a distribution by dividend.
- c) Subject to the Corporations Act 2001, ASX Listing Rules and any rights or restrictions attached to a class of shares, on a winding up of the Company, the liquidator may (with the sanction of a special resolution of shareholders) distribute among the Shareholders the whole or any part of the property of the Company and may also decide how to distribute the property as between Shareholders or different classes of shareholders and settle any dispute concerning the distribution.
- d) Shareholders may transfer shares by a proper transfer effected in accordance with the ASTC Operating Rules or an instrument in writing in the usual form or in any other form approved by the Board from time to time. The board of directors may refuse to register a transfer of shares in the circumstances permitted under the Listing Rules or the ASTC Operating Rules, or if the transfer is not in registrable form.
